
A
The two-carrier surface, contoured
physical trajectory $x = y$
10.63-nt coordinate, y (nt)
period-3 coordinate, x (nt)
unnormalized attention weight $e^{C_3 + C_{10}}$
B
Read along the trajectory: an exact factorisation
period-3 factor
10.63-nt factor
product (what the model sees)
unnormalized attention weight
position along $x = y$ (nt)
